

# Square Origami Gift Box

Start with a 4 squares of paper (origami paper, or cut from a sheet of A4 etc)

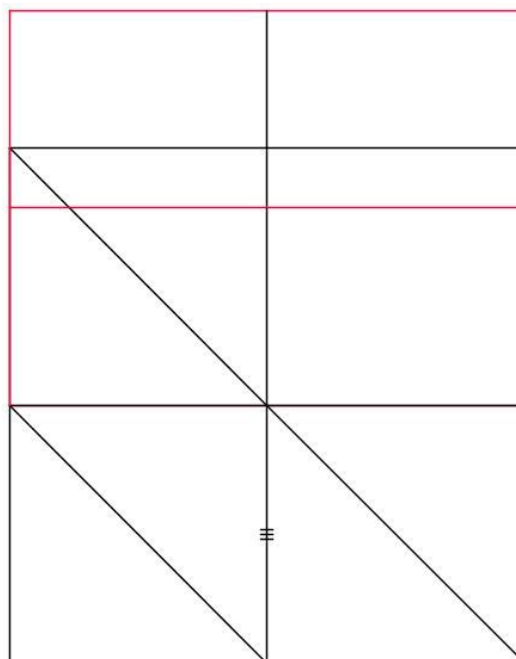

All folds are 'Valley' folds except the one marked III, which is a 'Mountain' fold

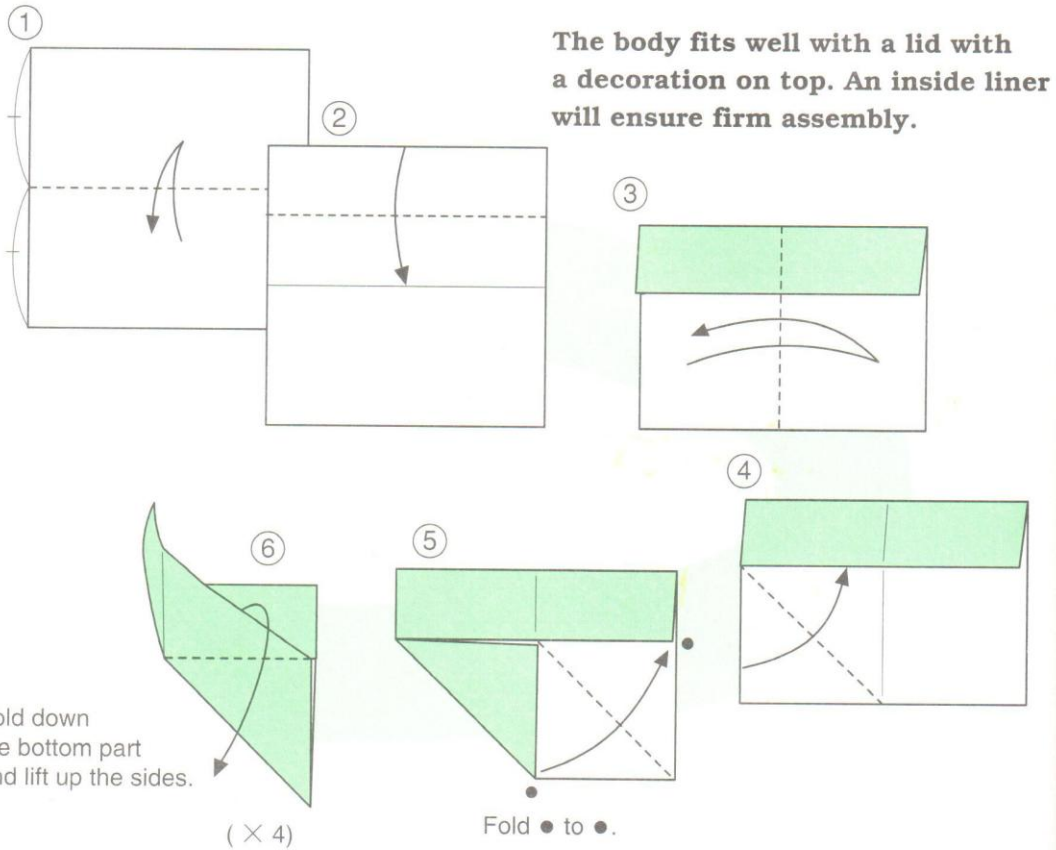

Put them together as shown on the next sheet.

To make a smaller deeper box inside, use 4 pieces of paper which are longer and about 3mm narrower.

Work on the square area at the bottom exactly as for the Top, but then make the sides of the box with the red lines below.

# Square Box *Body 1 & Inside Liner*

## [Assembly]
